

Release Notes

March 18th, 2011

Enhancements

- Growth Model: Public View: Users may now do multiple level disaggregation by selecting from the popup list, such as:
 - Grade 3, by ethnicity group, by special education
 - School, by Special Education, by Ethnicity
 - Grade 6, by Free Reduced Lunch, by EthnicityThis adds one more level of disaggregation to all of the School and Grade Level views.
- Student Summary: An individual student's Growth Model information is now displayed here.
- The ECA Status report has been updated with a new selection option for Cohort group. This cohort group will contain all students that have not yet been assigned to a high school cohort. That is to say, the students that may have taken ECA tests prior to entering 9th grade now show up on a cohort report.
- ISTAR: From Individual Reports, the option to generate a Life Skills/ Employability Skills Summary Report has been removed. The Assessment Summary report includes all areas assessed and this is not a separate report.
- ISTAR: From Individual Reports, finalized assessment dates are available to select for Assessment Summary, Comparison Bar Graph (KR), and Progress Monitoring
- ISTAR: Case Manager can now select a grade level to create an ISTAR assessment even if the student does not have a grade listed on their caseload list. These students will be displayed on the Compliance Report
- School Communities: Schools can now add folders to organize the Files/Bookmarks in the community.
- Login: Users are only required to answer two of the three security questions when using the "Forgot Password" functionality.
